The negative euribor is resulting in a negative amount of senior interest on the A-note. As the transaction documentation is not explicitly stating anything related to this situation, it is currently decided to floor this interest part at zero and to present this in the distribution report. Until final assessment is done on how to process negative interest amounts a ledger will be maintained. As long as senior interest is floored, it will automatically be included in the subordinated interest part, which is made visible in the above table.
