2) The delinquent quotient (the sum of the principle amount outstanding of the mortgage receivables that are more than 60 days in arrear divided by the aggregate principle amount outstanding of the mortgage receivables) may not be above 1.5%		
3) Any drawing under the liquidity facility is not repaid, or a drawing is made on the quarterly payment date

Overview interest settlements due to negative euribor								
Date	Note class A - start balance	Interest Accrual this period	Unsettled interest previous quarter (incl. accrued senior interest)	Senior Interest part current Quart. Calc. Period	Total receivable	Automatically transferred to interest deficiency ledger as subordinated interest	Settled through delayed payment	Current balance
25-Apr-16	-	-	-	11,140.80	11,140.80	11,140.80	-	-

The negative euribor is resulting in a negative amount of senior interest on the A-note. As the transaction documentation is not explicitly stating anything related to this situation, it is currently decided to floor this interest part at zero and to present this in the distribution report.

Until final assessment is done on how to process negative interest amounts a ledger will be maintained. As long as senior interest is floored, it will automatically be included in the subordinated interest part, which is made visible in the above table.
