\* Reference is made to the notice dated 28 May 2015:

**Reserve account target level triggers**  
 If on the immediately succeeding quarterly payment date the rated notes will be redeemed in full, the target will be zero, else up to the Quarterly payment date in July 2010, 0.40% of the aggregate principle amount outstanding on the rated notes on issue date, hereafter the higher of 0.15% of the aggregate principle amount outstanding on the rated notes on issue date and 0.30% of the aggregate principle amount outstanding on the rated notes on the first day of the immediately succeeding Floating Rate Interest Period.

No Extension Margins have been determined to date. The Issuer and the Security Trustee are considering the way forward. Pending such determination and until further notice, no distributions will be made through the Interest Priority of Payments prior to the notification of pledge, below item c, being the item directly above the item relating to the Subordinated Extension Interest Part relating to the Senior Class A Notes, and amounts then remaining will be provisionally retained by the Issuer. The current floating coupon includes the original margin as they were applicable before the first put date.

Delinquent mortgage receivables are the principle amounts outstanding of those loans who are 90 days or more in arrears, or less than 90 days in arrears, but given to the civil-law notary to start foreclosure-procedures. When this amount exceeds 2% of the aggregate principle amount outstanding on the mortgage receivables, the calculation of the target level of the reserve account will change to 1.50% of the aggregate outstanding principle amount of the rated notes as of closing date

Full redemption	N
Reserve account target level change date	26.07.10
Percentage delinquent mortgage receivables	1.19%

**Target amortisation events**  
 On the target amortisation date and any quarterly payment day thereafter the notes will redeem in a different way (using the notes redemption available amount) unless any target amortisation event has occurred and is not cured.  
 1) Reserve account level: The balance on the reserve account may not be less than the reserve account target level  
 2) The delinquent quotient (the sum of the principle amount outstanding of the mortgage receivables that are more than 60 days in arrears divided by the aggregate principle amount outstanding of the mortgage receivables) may not be above 1.5%  
 3) Any drawing under the liquidity facility is not repaid, or a drawing is made on the quarterly payment date  
 4) There may not be any balance on the principal deficiency ledger

Reserve account level minus

The negative euribor is resulting in a negative amount of interest on the A-, B- and C-notes. As the transaction documentation is not explicitly stating anything related to this situation, it is currently decided to floor this interest part at zero and to process this in the distribution report. Until final assessment is done on how to process negative interest amounts a ledger will be maintained.
