Reserve Account Target Level Change Date: 26-07-10

2) The delinquent quotient (the sum of the principle amount outstanding of the mortgage receivables that are more than 60 days in arrears divided by the aggregate principle amount outstanding of the mortgage receivables) may not be above 1.5%.

3) Any drawing under the liquidity facility is not made, or a drawing is made on the quarterly payment date.

4) There may not be any balance on the principle deficiency ledger.

The negative euribor is resulting in a negative amount of senior interest on the A-, B- and C-note. As the transaction documentation is not explicitly stating anything related to this situation, it is currently decided to

floor this interest part at zero and to present this in the distribution report.
Until final assessment is done on how to process negative interest amounts a ledger will be maintained. As long as senior interest is floored, it will automatically be included in the subordinated interest part,
which is made visible in the above table.
