No Extension Margins have been determined to date. The Issuer and the Security Trustee are considering the way forward. The current floating coupon includes the original margins as they were applicable before the first put date.

The negative euribor is resulting in a negative amount of interest on the A-note. As the transaction documentation is not explicitly stating anything related to this situation, it is currently decided to floor this interest part at zero and to present this in the distribution report.
 Until final assessment is done on how to process negative interest amounts a ledger will be maintained.
